Compumedics Neuroscan 2013 Methods in Neuroscience Courses.

Compumedics recently presented three very successful inaugural **Methods in Neuroscience educational courses**. The courses are conducted in conjunction with the **4th Australasian Cognitive Neuroscience Conference 2013** and in cooperation with the **Monash University's Monash Biomedical Imaging**. Each of the courses are specifically aimed at and tailored to the needs of students, researchers or clinical practitioners. The courses are hands on, conducted by **Compumedics Neuroscan experts** in the field and using the latest multi-modal Neuroimaging solutions.

Monash Biomedical Imaging Centre,
Monash University; Dr. Curtis Ponton;
Simon Vogrin at the hands-on
demonstration during the course;
Dr. Curtis Ponton and Professor Mark
Cook; live acquisition using the MRI;
Dr. Chris Plummer.

COMPUMEDICS NEUROSCAN EDUCATION

As part of the educational programme, Compumedics also presented special guest lectures from **Professor Gary Egan**, Professor and Foundation director of the Monash Biomedical Imaging, **Professor Mark Cook**, Chair of Medicine, Professor and Director of Neurology at the St. Vincent's Hospital, Melbourne, and **Dr. David Burton**, Compumedics Executive Chairman and CEO.

Left and below: Dr. David Burton

Each of the courses also included a tour of the impressive Australian Synchrotron, the largest stand-alone piece of infrastructure in the southern hemisphere.

Compumedics presented the inaugural **2013 Compumedics-Monash University Advanced Medical Innovation Challenge Award** to **Gabrielle Sylviria**.

From left: Dr. David Burton, Gabrielle Sylviria, Professor Jamie Evans (Monash University), Gita Pendharker (Monash University).

German Neuroscan School

Compumedics Annual German Neuroscan School was held in October in Hamburg, Germany and was attended by over 20 participants. School attendees were a vast mix coming from the United States of America, Denmark, Sweden, the Netherlands, the UK and Australia!

The course covered **CURRY EEG Acquisition and Signal Processing and CURRY Source Analysis & Multimodal Integration**.

This four day school was held at the Compumedics offices in Hamburg and was conducted by Compumedics Neuroscan's German research scientists **Manfred Fuchs** and **Reyko Tech**.

Taiwan Curry School

The **Taipei Institute of Linguistics/Academia Sinica in Taipei**, was the venue for the **September 2013 Taiwan Curry School**. Conducted by Compumedics **Dr. Michael Wagner** and **Dr. Curtis Ponton**, this school was held over 2 days and was well attended by over 60 participants from more than 20 labs in Taiwan.

China Neuroscan School

The **China Curry School** was held in the first week of November at the **China Youth University for Political Sciences in Beijing China**. Conducted by Compumedics **Dr. Michael Wagner** and **Dr. Curtis Ponton**, this school was held over 3 days and was attended by over 50 participants from labs based all over mainland China.

May 30, 2014

Compumedics NeuroScan Clinical Curry Workshop:

Source Localization in Epilepsy Evaluations

Host: **John S. Ebersole, MD**
Date: **May 30 - June 1, 2014**
Venue: **Overlook Medical Center, Summit, NJ**

*Compumedics wishes you
the very best for the Holiday Season
and thanks you for your valued support
throughout the year.*

THE COMPUMEDICS DIVISIONS *Defining Life's Signals*

Compumedics' operations consist of five divisions - each with its own product focus

Compumedics Sleep
Clinical Diagnostic Systems for Sleep Disorders

Compumedics NeuroScan
World-leading Research EEG/ERP systems

Compumedics Neuroscience
for Neurophysiology Clinical Diagnostic Systems

Compumedics Neuromedical Supplies
Electrodes, sensors and Sleep laboratories and supplies for Neurology

Compumedics DWL
Ultrasound Doppler Systems
