## Directors' Report

Your directors present their report on the consolidated entity (referred to hereafter as the Group) consisting of Compumedics Limited and the entities it controlled at the end of, or during, the year ended 30 June 2018.

The following persons were directors of Compumedics Limited during the whole of the financial year and up to the date of this report unless otherwise stated:

Dr. David Burton  
 Dr. Alan Anderson  
 Mr. David Lawson  
 Mr. Tucson Dunn (from May 23, 2018)

### Principal activities

During the year the principal continuing activities of the Group were the research, development, manufacture and distribution of medical equipment. There have been no significant changes in the operation of the Group during the year.

### Dividends

The directors have not declared a dividend in the current financial year (2017: nil).

### Review of operations

Information on the operations and financial position of the Group and its business strategies and prospects and a summary of consolidated revenue and results by operating segments are set out below:

	Total Revenue		Segment Results	
	2018 \$000	2017 \$000	2018 \$000	2017 \$000
USA	12,042	10,785	2,032	(401)
Australia and Asia Pacific	14,815	16,127	1,040	3,091
Europe	10,145	7,505	1,104	96
Total continuing operations	<b>37,002</b>	<b>34,417</b>	<b>4,176</b>	<b>2,786</b>
Depreciation and amortisation			(482)	(1,368)
Finance costs			(207)	(312)
Other income			-	-
Profit before income tax expense			3,487	1,106
Income tax revenue/(expense)			(703)	199
Profit for the year			<b>2,784</b>	<b>1,305</b>

Comments on the operations and the results of those operations are set out below:

During the 2018 financial year the Company has worked to install its first MEG sale at the Barrow Neurological Institute (BNI) in the USA. At the same time, the Group has also progressed discussions with a number of international parties regarding the commercialization of the Somfit, consumer based, sleep monitoring device and technology. The Company has concurrently with these two step out growth opportunities, continued to grow its core sleep, neuro diagnostic and trans cranial Doppler business, with sales growth being recording in all key markets for the Group, which has ultimately driven higher profits compared to the prior year.

### FINANCE

During the 2018 financial year the Company put in place one additional line of credit to assist with funding the MEG sale to BNI. This was a USD1m facility that is in addition to the Company's existing and on-going bank provided facilities. There were no other financing activities during the 2018 financial year.

## OPERATIONS

Compumedics research and development (R&D) investment was slightly lower than the prior year at approximately 14% of sales for the 2018 financial year, which is about twice the industry standard. Consequently, the Group has retained its technological leadership, with a strong pipeline of new and exciting upcoming product releases and upgrades.

In order to ensure the Group operates as efficiently as possible a number of existing projects have concluded and new projects commenced during the financial year. These include moving some products to full turnkey production with specialist third party manufacturers where it is more economical and efficient to do so. The Group has also continued to streamline its logistical operations in Melbourne and the US as part of these activities.

While these structural transforms have demanded on-going investment in the short term, in terms of personnel, engineering and components, they have and will continue to result in substantial savings and elevated shareholder returns in the medium term through on-going improved margins.

## STRENGTHENED SALES AND MARKETING

The Group achieved the following geographical outcomes.

### *(a) USA*

Total US revenues were \$12.0m for the year ended 30 June 2018 compared to \$10.8m for the prior year. The increased sales revenue in the US reflects the Company's restructure of the general and sales and marketing management and team members and the benefits now being driven from those changes.

### *(b) Asia Pacific*

Australian and Asia Pacific revenues for the year ended 30 June 2018 were \$14.8m compared to \$16.1m for the prior year. The Chinese and other Asian markets performed well for the year ended 30<sup>th</sup> June 2018, whilst Australia was down on the prior year. It is expected that China will continue to grow as a proportion of total Group sales.

### *(c) Europe*

European revenues for the year ended 30 June 2018 were \$10.1m compared to the prior year of \$7.5m reflecting better trading conditions in key markets there and a better market for the Germany-based DWL business.

The Group continues to make gains in Neuro diagnostic markets around the world, particularly China, with new and existing distribution partners executing agreements to continue to pursue sales in their respective territories. This is in addition to the on-going focus in our key global markets where we sell directly, such as, the US, Australia, Germany and France.

In the Group's core sleep diagnostic business, Compumedics has the most sophisticated and advanced range of sleep-monitoring systems of any of the companies competing in these markets. The Group continues to be recognised as a leading sleep diagnostic Company worldwide and as such global sleep diagnostic markets continue to offer opportunities for growth, particularly in Asia Pacific and specifically China.

The Group is continuing to develop its eHealth, Cloud or WEB enabled, sleep diagnostic solution for key markets around the world. This has included detailed discussions around joint venture and other similar structures with potential key international strategic partners. The Company now has 16 sites in the US for its Nexus 360 Professional sleep diagnostic cloud based service with invoiced revenues of \$285k in FY2018 and a predicted revenue run rate closer to \$1m as we exit the 2019 financial year.

The Group is also installing its first MEG system to the Barrow Neurological Institute in Phoenix, Arizona, USA.

## BREAKOUT MEDICAL INNOVATIONS

Compumedics Medical Innovation (CMI) division has continued to develop a number of breakout technology platforms. Each of these CMI platforms incorporates a folio of patents, compliments Compumedics' core business, presents unique and significant product differentiation, and has been independently validated, as outlined in the subsequent sections.

## SUMMARY

The Group is clearly focused on the following key goals being:

- 1 The geographical expansion of the core sleep diagnostic and neuro diagnostic monitoring businesses into global territories, where the Group has little or no market share.
- 2 Ship and deliver the first MEG sale to Barrow Neurological Institute in Phoenix, AZ, USA, whilst concurrently pursuing the next MEG opportunities.
- 3 Substantially grow the Nexus 360 cloud based sleep diagnostic business from the initial 16 sites in the US.
- 4 Continue the productivity enhancement programs to eliminate and reconfigure expensive and inefficient processes with all parts of the business.
- 5 Commercialisation of the Group's consumer sleep technology, Somfit.

This is a great Company and we remain confident the operational initiatives currently being undertaken will continue to improve profitability in the short-term, allowing our very positive prospects for the medium and long-term to be realised. The demand for innovative healthcare solutions continues to be underpinned by an ever-increasing ageing population, coupled with the growing incidence and awareness of neurology and sleep disorders.

### Likely Developments and Expected Results

The focus for the Group will be on continuing the profitable growth achieved during the year ended 30 June 2018, to further capitalise on the larger and growing customer base of the Group. The Group will also continue development of its MEG business and commercialisation of its Somfit product with interested international partners.

The Group expects revenues to be within a range of \$40.0m to \$42.0m for the year ended 30 June 2019. On the basis revenues are within this range earnings before interest, tax, depreciation and amortisation should be between \$5.5m and \$6.5m, with net profits after tax between \$4.0m and \$5.0m.

### Significant Changes in State of Affairs

There have been no significant changes in the state of affairs of the Group during the financial year.

### Matters Subsequent to the End of the Financial Year

The Directors are not aware of any matters subsequent to the end of the financial year that would have a material impact on the financial performance of the Group.

### Environmental Regulation

The Group is not subject to significant environmental regulation in respect of its activities.

**Information on directors*****Dr. David Burton, Chairman and Chief Executive Officer, Age 60****Experience and expertise*

Founder and major shareholder through related entity. He was awarded an Associate Diploma in Engineering (Electronics) by the Royal Melbourne Institute of Technology and a Ph.D. (Eng. Sc.) by Monash University, Melbourne (Australia). Dr. Burton's engineering background includes the design and project management of the Compumedics' first sleep laboratory and portable sleep systems. Dr. Burton has authored fifteen patents or patent applications that form part of Compumedics' key intellectual property. Extensive experience in the development, design, manufacture and sale of medical devices and the development of the business.

**Company secretary**

The Company secretary is Mr. D. F. Lawson, Chartered Accountant. Mr. Lawson was appointed to the position of Company Secretary in 2000. Mr. Lawson has a Bachelor of Commerce from Melbourne University and is a Member of Chartered Accountants in Australia and New Zealand.

**Meetings of directors**

The numbers of meetings of the Company's Board of directors and of each Board committee held during the year ended 30 June 2018, and the numbers of meetings attended by each director were:

**Meetings of committees**

	Full meetings of directors		Audit		Remuneration	
	A	B	A	B	A	B
Dr. David Burton	10	10	2	2	1	1
Dr. Alan Anderson	10	10	2	2	1	1
Mr. David Lawson	10	10	2	2	1	1
Mr. Tucson Dunn*	1	1	-	-	-	-

\* Mr Dunn provided his consent to become a Director on 10<sup>th</sup> May 2018 and was appointed to the Board of Directors on 23<sup>rd</sup> May 2018, subject to confirmation by shareholders at the next Annual General Meeting

A – Number of meetings attended

B – Number of meetings held during the time the director held office or was a member of the committee during the year

**Remuneration report (audited)**

The remuneration report is set out under the following main headings:

- A Principles used to determine the nature and amount of remuneration
- B Details of remuneration
- C Service agreements
- D Share-based compensation
- E Additional information

The information provided in this remuneration report has been audited as required by section 308(3C) of the Corporations Act 2001.

## **A Principles used to determine the nature and amount of remuneration**

The objective of the Group's executive reward framework is to ensure reward for performance is competitive and appropriate for the results delivered. The framework aligns executive reward with achievement of strategic objectives and the creation of value for shareholders, and conforms to market practice for delivery of reward. The Board ensures that executive reward satisfies the following key criteria for good reward governance practices:

- competitiveness and reasonableness
- acceptability to shareholders
- performance linkage / alignment of executive compensation
- transparency
- capital management

The Group has structured an executive remuneration framework that is market competitive and complimentary to the reward strategy of the organisation. The Board is satisfied remuneration recommendations are made free from undue influence by the members of the key management personnel.

Alignment to shareholders' interests:

- has economic profit as a core component of plan design
- focuses on sustained growth in shareholder wealth, consisting of dividends and growth in share price
- delivering constant return on assets as well as focusing the executive on key non-financial drivers of value
- attracts and retains high calibre executives

Alignment to program participants' interests:

- rewards capability and experience
- reflects competitive reward for contribution to growth in shareholder wealth
- provides a clear structure for earning rewards
- provides recognition for contribution

The framework provides a mix of fixed and variable pay, and a blend of short and long-term incentives. As executives gain seniority with the group, the balance of this mix shifts to a higher proportion of "at risk" rewards.

The Board has established a remuneration committee, which provides advice on remuneration and incentive policies and practices and specific recommendations on remuneration packages and other terms of employment for executive directors, other senior executives and non-executive directors. The Corporate Governance Statement provides further information on the role of this committee.

### ***Non-executive directors***

Fees and payments to non-executive directors reflect the demands, which are made on, and the responsibilities of, the directors. Non-executive directors' fees and payments are reviewed annually by the Board. The Chairman's fees are determined independently to the fees of non-executive directors based on comparative roles in the external market. The Chairman is not present at any discussions relating to determination of his own remuneration.

Non-executive directors do not receive share options.

#### ***Directors' fees***

The current base remuneration was last reviewed with effect from 1 July 2007. The Chairman's remuneration is inclusive of committee fees while other non-executive directors who chair a committee receive additional yearly fees.

Non-executive directors' fees are determined within an aggregate directors' fee pool limit, which is periodically recommended for approval by shareholders. The maximum currently stands at \$250,000 total pool per annum.

The following fees have been applied:

	From 1 July 2017 to 30 June 2018 \$	From 1 July 2016 to 30 June 2017 \$
<b>Base fees</b>		
Chairman	50,000	50,000
Other non-executive directors	30,000	30,000
<b>Additional Fees</b>		
Audit committee – chairman	5,000	5,000
Audit committee – member	2,500	2,500
Remuneration committee – chairman	5,000	5,000
Remuneration committee – member	2,500	2,500

### **Executive pay**

The executive pay and reward framework has 5 components:

- Base pay and benefits
- Short-term performance incentives
- Long-term incentives through participation in the Compumedics Limited Employee Option Plan
- Other remuneration such as superannuation, and
- Long-term equity linked incentive program specifically for the head of the Medical Innovations Division.

The combination of these comprises the executive's total remuneration.

#### **Base pay**

Structured as a total employment cost package, which may be delivered as a combination of cash and prescribed non-financial benefits at the executives' discretion.

Executives are offered a competitive base pay that comprises the fixed component of pay and rewards. Base pay for executives is reviewed annually to ensure the executive's pay is competitive with the market. An executive's pay is also reviewed on promotion.

#### **Benefits**

Executives may receive benefits including health insurance, car allowances, other expense reimbursements and tax advisory services.

#### **Superannuation**

Retirement benefits are currently limited to the statutory rate of superannuation, but are not capped based on salary. Executives may elect to make further salary sacrifice additions to superannuation funds of their choice, up to the allowable limits prescribed.

#### **Short-term incentives**

Should the Group achieve a pre-determined profit target set by the remuneration committee a pool of short-term incentive (STI) is available to executives during the annual review. Using a profit target ensures variable award is only available when value has been created for shareholders and when profit is consistent with the business plan. The incentive pool is leveraged for performance above the threshold to provide an incentive for executive out-performance.

Each executive has a target STI opportunity depending on the accountabilities of the role and impact on the organisation or business unit performance. The maximum target bonus opportunity can be up to 60% of base pay, as determined by the remuneration committee each year.

Each year, the remuneration committee considers the appropriate targets and key performance indicators (KPIs) to link the STI plan and the level of payout if targets are met. This includes setting any maximum payout under the STI plan, and minimum levels of performance to trigger payment of STI.

For the year ended 30 June 2018, the KPIs linked to short-term incentive plans were based on Group, individual business and personal objectives. KPIs are set according to the individual responsibilities of each member of the executive team.

Each year the remuneration committee considers the appropriate targets and key performance indicators (KPI's) to link the Short Term Incentive (STI) plan and the level of payout if targets are met. This includes setting any maximum payout under the STI plan and minimum levels of performance to trigger payment of STI.

The short-term bonus payments may be adjusted up or down in line with under or over achievement against the target performance levels. This is at the discretion of the remuneration committee.

The STI target payment is assessed by the Chief Executive Officer (CEO) and the Chief Financial Officer (CFO) following the end of each financial year and any payments due are recommended to the remuneration committee for authorisation. The CEO and CFO recommend STI targets for the following year for key executives, which are put to the remuneration committee for review and authorisation annually.

#### *Long-term incentives*

The Group has instigated a long-term incentive program for one executive. At 30 June 2018 no other long-term incentive plans were in place for any other Director or key management personnel. Any instigation of a long-term incentive program for any other executive of the Group will be determined by and authorised by the remuneration committee and the remuneration committee will assess subsequent performance.

#### Medical Innovation Long Term Performance Plan (MI-LTPP)

The Group has formalised and gained approval at the 2009 and 2014 annual general meetings for the MI-LTPP for the head of the Medical Innovations Division ("Division Head"), who is currently the Executive Chairman. The rationale of the MI-LTPP is to reward the Division Head where future commercial projects are met on the following criteria:

1. The future commercial project is based on innovative, novel and patentable technology;
2. The patented technology is supplementary to, but consistent with, the ongoing businesses of Compumedics Limited; and
3. There is significant risk attached to the development of the intellectual property or technology and the commercialisation thereof.

On the basis that these 3 criteria exist, and, determined by the Remuneration Committee, a commercial project will be eligible for inclusion under the MI-LTPP. At 30 June 2018 the Remuneration Committee has approved several projects that are eligible under the MI-LTPP subject to the parameters discussed below.

The parameters of the MI-LTPP include that the Division Head will be entitled to an incremental 8% equity in any subsidiary entities of the Group that develop projects that meet all of criteria 1 to 3. The 8% equity will only deliver value to the Divisional Head where value is created for the whole Group, in which case the Group receives 92% of the incremental value created.

The entitlement will be calculated after repayment of any initial costs of establishment or development costs outlaid by Compumedics. The Directors have sought and gained expert advice that the entitlements under the plan form part of remuneration for the purposes of accounting standards and are fair and reasonable, having regard to relevant circumstances.

The Board recommended to shareholders and the shareholders approved, at the 2014 AGM, the 8% equity be issued to the Division Head. As a result 8% of the issued capital of Compumedics Medical Innovation Pty Ltd was issued to David Burton, late October 2014.

#### Compumedics Employee Option Plan

Information on the Compumedics Option Plan is set out in section D and note 28 to the Financial Statements. There are no share based payments for the year ended 30<sup>th</sup> June 2018.

**B Details of remuneration***Amounts of remuneration*

Details of the remuneration of the directors and the key management personnel (as defined in AASB 124 Related Party Disclosures) of Compumedics Group are set out in the following tables.

The key management personnel of the Group are the directors of Compumedics Limited (see pages 5 to 6 above) and those executives that report directly to the Chief Executive Officer being:

- Warwick Freeman, Chief Technology Officer
- Kerry Hubick, Chief Legal Officer
- Christoph Witte, Managing Director – Compumedics Germany GmbH

Kerry Hubick	100	100	-	-	-	-
Other key management personnel of the Group						
Christoph Witte	100	90	-	10	-	-

The table below identifies for each cash bonus and grant of options included in the tables on pages 9 and 10, the percentage of the available bonus or grant that was paid, or that vested, in the financial year, and the percentage that was forfeited because the person did not meet the service and performance criteria set. No other cash bonus targets were set for any other executive of the Group for the year ended 30 June 2018. As such no other executive was eligible for a cash bonus and as a consequence did not forfeit a cash bonus.

Name	Cash bonus	
	Paid %	Forfeited %
David Burton	N/A	N/A
David Lawson	N/A	N/A
Christoph Witte	N/A	N/A

## C Service agreements

On appointment to the Board, all non-executive directors enter into a service agreement with the Company in the form of a letter of appointment. The letter summarises the Board policies and terms, including compensation, relevant to the office of the director.

Remuneration and other terms of employment for the Chief Financial Officer and the other key management personnel are also formalised in service agreements. Each of these agreements provide for the provision of performance-related cash bonuses, other benefits including health insurance, car allowances and tax advisory services, and other benefits set out below.

All contracts with executives may be terminated early by either party, subject to termination payments, as detailed below.

### *David Burton, Chief Executive Officer/Chairman*

- Fee for services provided for the year ended 30 June 2018 of AUD199,967, to be reviewed annually by the remuneration committee. David Burton is also entitled to participate in the Medical Innovation Long Term Performance Plan as approved at the 2009 and 2014 Annual General Meetings.
- D & DJ Burton Holdings Pty Ltd a Company associated with D. Burton receives licence fees, described in Note 29.
- Performance bonus: No performance bonus was paid during the financial year. (2017: \$39,840).
- Review of last salary and fees -1 July 2017
- David Burton has a formal Employment Contract, which covers the above terms, amongst other items, including a twelve-month notice period.

### *David Lawson, Executive Director, Chief Financial Officer/Company Secretary*

- Base salary inclusive of superannuation, for the year ended 30 June 2018 of AUD 248,319 to be reviewed annually by the remuneration committee. Directors fees of \$35,000 were also paid (2017: \$35,000)
- Performance bonus: No performance bonus was granted or paid during the financial year. (2017: \$20,000)
- Review of last salary -1 July 2017
- The service agreement takes the form of a letter of offer, which incorporates Compumedics standard conditions of employment, which includes a twelve-month termination notice period, amongst other statutory conditions.

*Warwick Freeman, Chief Technology Officer*

- Base salary inclusive of superannuation and car allowance, for the year ended 30 June 2018 of AUD283,386 to be reviewed annually by the remuneration committee
- Review of last salary -1 July 2017
- The service agreement takes the form of a letter of offer, which incorporates Compumedics standard conditions of employment, which includes a twelve-month termination notice period, amongst other basic statutory conditions.

*Kerry Hubick, Legal Counsel and Patent Attorney*

- Base salary inclusive of superannuation and car allowance, for the year ended 30 June 2018 of AUD81,249 to be reviewed annually by the remuneration committee. Base salary reflects move from full-time to part-time work with the Company at the end of FY2017.
- Review of last salary -1 July 2017
- The service agreement takes the form of a letter of offer, which incorporates Compumedics standard conditions of employment, which reflects termination notice of four weeks, amongst other basic statutory conditions.

*Christoph Witte, Managing Director, DWL*

- Base salary inclusive of superannuation, for the year ended 30 June 2018 of EUR198,264, to be reviewed annually by the remuneration committee.
- Car Allowance of EUR7,419
- Performance bonus – no performance bonus was granted or paid during the year ended 30 June 2018. (2017: EUR21,914)
- Review of last salary -1 July 2017
- Christoph Witte's service agreement contains a notice period of six months, amongst other conditions.

**D Share-based compensation**

The establishment of the Compumedics Limited Employee Option Plan was approved by shareholders immediately prior to the listing of the Company in December 2000. All staff are eligible to participate in the plan. Options are typically granted under the plan for no consideration except when options are issued in lieu of a cash bonus as noted below. Options are granted for a five year period and each new tranche vests is exercisable on the following basis:

- (i) 20% of each new tranche vests and is exercisable at the 1st anniversary date of the grant
- (ii) 30% of each new tranche vests and is exercisable at the 2nd anniversary date of the grant
- (iii) 50% of each new tranche vests and is exercisable at the 3rd anniversary date into one ordinary share of the Company.

The exercise price of the options is based on the closing price at which the Company's shares are traded on the Australian Securities Exchange on the day prior to the grant.

Where options have been taken in lieu of a cash bonus the vesting period does not apply and the exercise price is 1 cent per share. The number of options issued is calculated by dividing the cash bonus available by the average share price for the 5 trading days prior to the granting of the options taken in lieu of the cash bonus.

The Group did not have any share-based payments in the full year ended 30 June 2018. Unissued ordinary shares in Compumedics Limited under option at the date of this report held by directors are Nil.

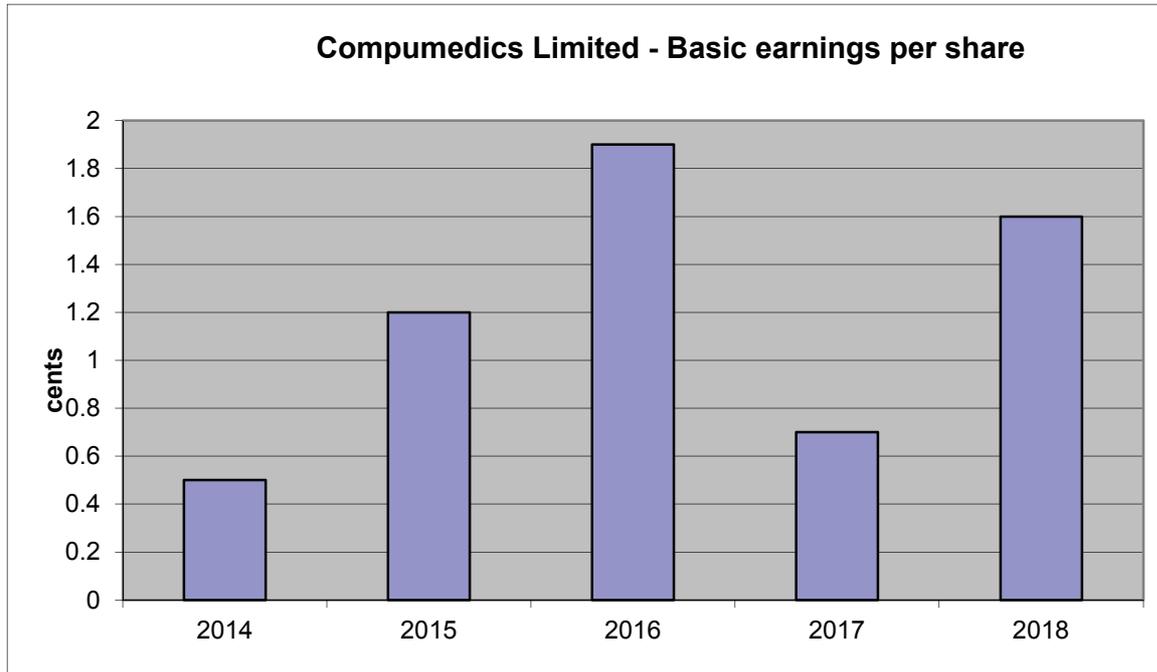

**E Additional information****Loans to directors and executives**

There are no current loans to directors and executives.

**Shares under option**

There were no unissued ordinary shares of Compumedics Limited under option at the date of this report. No options expired during the financial year ended 30 June 2018 (2017: NIL).

There were no new options issued during the year.

**Group performance**

The earnings per share performance of the Compumedics Group reflects the improvement in the financial performance of the group, driven by growth in the group's key markets around the world and the partial invoicing of the MEG sale. The directors remain focused on driving earnings per share higher.

**Insurance of officers**

During the financial year, Compumedics Limited paid premiums of \$26,868 to insure the Directors and Secretary of the Company and its Australian-based controlled entities, and the Executives and other senior managers of each of the divisions of the Group.

The liabilities insured are legal costs that may be incurred in defending civil or criminal proceedings that may be brought against the officers in their capacity as officers of entities in the Group, and any other payments arising from liabilities incurred by the officers in connection with such proceedings. This does not include such liabilities that arise from conduct involving a wilful breach of duty by the officers or the improper use by the officers of their position or of information to gain advantage for them or someone else or to cause detriment to the Group. It is not possible to apportion the premium between amounts relating to the insurance against legal costs and those relating to other liabilities.

**Proceedings on behalf of the Company**

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the *Corporations Act 2001*.

### Non-audit services

The Group may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Group are important.

Details of the amounts paid or payable to the auditor Nexia Melbourne Audit Pty Ltd, for non-audit services provided during the year are set out below.

The Board of directors has considered the position and, in accordance with advice received from the audit committee, is satisfied that the provision of the non-audit services is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The directors are satisfied that the provision of non-audit services by the auditor, as set out below, did not compromise the auditor independence requirements of the *Corporations Act 2001* for the following reasons:

- All non-audit services have been reviewed by the audit committee to ensure they do not impact the impartiality and objectivity of the auditor
- None of the services undermine the general principles relating to auditor independence as set out in APES 110 *Code of Ethics for Professional Accountants*.

During the year the following fees were paid or payable for services provided by the auditor of the parent entity, its related practices and non-related audit firms:

	Consolidated	
	2018	2017
	\$	\$
<b>Non-audit services</b>		
<i>Taxation services</i>		
Tax compliance services	37,000	34,000
<b>Total remuneration for taxation services</b>	<b>37,000</b>	<b>34,000</b>

### Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 15.

### Rounding of amounts

Compumedics Limited is a type of Company referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 and therefore the amounts contained in this report and in the financial report have been rounded to the nearest \$1,000, or in certain cases, to the nearest dollar.

### Auditor

Nexia Melbourne Audit Pty Ltd continues in office in accordance with section 327 of the *Corporations Act 2001*.

This report is made in accordance with a resolution of directors.

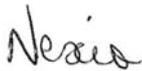

David Burton  
Director

Melbourne  
20 September 2018

## Auditor's Independence Declaration under Section 307C of the Corporations Act 2001 to the Directors of Compumedics Limited

I declare that, to the best of my knowledge and belief, during the year ended 30 June 2018, there have been:

- (i) no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and
- (ii) no contraventions of any applicable code of professional conduct in relation to the audit.

**Nexia Melbourne Audit Pty Ltd**

The above Consolidated Statement of Cash Flows should be read in conjunction with the accompanying notes.

# Notes to the Financial Statements

For the year ended 30 June 2018

## 1. Summary of significant accounting policies

The principal accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial report includes financial statements for the consolidated entity consisting of Compumedics Limited and its subsidiaries. Compumedics Limited is the ultimate parent.

### (a) Basis of preparation

This general-purpose financial report has been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001. The financial report has been prepared for a for-profit-entity.

#### **Compliance with IFRS**

The financial report complies with Australian Accounting Standards and International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

#### **Historical cost convention**

These financial statements have been prepared under the historical cost convention.

#### **Critical accounting estimates**

The preparation of the financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 3.

#### **Going Concern and funding facilities**

During the year ended 30<sup>th</sup> June 2018 the Group reported a profit after tax of \$2.8m and net positive cash flow from operations of \$0.6m.

The Group reported cash of \$3.9m at 30 June 2018, compared to \$4.1m at 30 June 2017.

As such the Directors have prepared the financial statements on a going-concern basis.

### (b) Principles of consolidation

#### **Subsidiaries**

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Compumedics Limited ("Group") as at 30 June 2018 and the results of all subsidiaries for the year then ended. Compumedics Limited and its subsidiaries together are referred to in this financial report as the Group or the consolidated entity.

Subsidiaries are all those entities (including special purpose entities) over which the Group has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Subsidiaries are fully consolidated from the date on which the Group obtains control and cease to be consolidated from the date on which control is transferred out of the Group.

## 1. Summary of significant accounting policies (continued)

The Group uses the acquisition method of accounting to account for the acquisition of subsidiaries.

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

### (c) Operating segments

An operating segment is a component of an entity that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity), whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available. This includes start up operations, which are yet to earn revenues. Management will also consider other factors in determining operating segments such as the existence of a line manager and the level of segment information presented to the Board of directors.

Operating segments have been identified based on the information provided to the chief operating decision maker being the executive management team.

The group aggregates two or more operating segments when they have similar economic characteristics, and the segments are similar in each of the following respects:

- Nature of the products and services,
- Nature of the production processes,
- Type or class of customer for the products and services,
- Methods used to distribute the products or provide the services, and if applicable
- Nature of the regulatory environment.

Operating segments that meet the quantitative criteria as prescribed by AASB 8 are reported separately. However, an operating segment that does not meet the quantitative criteria is still reported separately where information about the segment would be useful to users of the financial statements.

### (d) Foreign currency translation

#### (i) *Functional and presentation currency*

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Australian dollars, which is Compumedics Limited's functional and presentation currency.

#### (ii) *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss, except when they are deferred in other comprehensive income as qualifying cash flow hedges and qualifying net investment hedges or are attributable to part of the net investment in a foreign operation.

#### (iii) *Group companies*

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are taken to foreign currency translation reserve. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, a proportionate share of such exchange differences are recognised in profit or loss, as part of the gain or loss on sale where applicable.

## 1. Summary of significant accounting policies (continued)

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entities and translated at the closing rate.

### (e) Revenue recognition

#### The sale of products

The Company typically sells its products, being medical devices (hardware and software), either directly to end-user customers, such as hospitals, private physicians, universities or medical service providers, or to distributors, who then sell the product onto end-user customers.

Where the Company sells products to end-user customers there is typically an installation and training obligation at the end-user customer site, once the goods have been shipped to the end-user customer. In such situations the contract of sale with the end-user customer will separately identify the installation and training obligation, with a separate price for that installation and training obligation.

Taking into consideration the terms and conditions of sale, which forms the basis of the contract of sale between the Company and the end-user customer the Company recognises the sale of the products when the products are shipped from the Company's facility to the end-user customer, excluding that part of the price that is separately attributable to the installation and training obligation. This revenue will be recognised once the installation and training obligation has been satisfied.

Where the Company sells its products to its distributors, who then sell those products to end-user customers the Company typically, does not have an installation and training obligation with the distributor. As such the Company will recognise revenue for the sale of products to its distributors when the products are shipped to the distributor.

Should the Company sell products to end-user customers or distributors that have different terms and conditions in the contract of sale, to those typically entered into then the Company will review the specific contract of sale and book revenue according to the completion of the terms of the contract of sale.

#### The sale of services

The Company typically sells its services, being post product-sale technical service and support or software-as-a-service (typically diagnostic software sold on a per-use or per-user basis) either under an annual or multi-year contract with an end-user customer, or on a per-use, or once-off basis.

Typically the entering of a contract for post product-sale technical service and support by an end-user customer will involve the Company providing pre-defined on-site, over the phone, or WEB-based technical advice regarding the use and/or application of the product. Typically the contract for service will also include performance parameters for service and repair of the products, should they malfunction, be broken or be damaged in use.

Where the Company sells post product-sale technical service and support services to end-user customers under an annual or multi-year contract, the Company will recognise the revenue associated with these contracts for service on a monthly basis as the service obligation for that month is satisfied.

If an end-user customer does not enter into an annual or multi-year service contract and requires these types of services to be performed by the Company then the end-user customer shall pay for these services on a per-use, or once-off basis. Revenue associated with these per-use or one-off contracts for service will be recognised at the time the service obligation by the Company is satisfied with the end-user customer.

Typically distributors of the Company's products will not require services as described above, but where they do, revenue will be recognised in the manner described above.

## 1. Summary of significant accounting policies (continued)

Where the Company sells its diagnostic software on a per-use or per-user basis under an annual or multi-year contract to an end-user customer, the Company will recognise that revenue each month as the delivery of the diagnostic software obligation on a per-use or per-user basis is satisfied with the end-user customer for that month.

Should the Company sell services to end-user customers or distributors that have different performance obligations in the contract of service, to those typically entered into, and as described above, then the Company will review the specific contract of service in relation to terms of that contract and book revenue according to the obligations of the contract of service.

### (f) Income tax

Current tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities based on the current period's taxable income. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the income statement. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred income tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences except:

- ▶ When the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- ▶ When the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

- ▶ When the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- ▶ When the deductible temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, in which case a deferred tax asset is only recognised to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilized

## 1 Summary of significant accounting policies (continued)

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

### *Tax consolidation legislation*

Compumedics Limited and its wholly owned Australian controlled entities have not implemented the tax consolidation legislation.

### *Other taxes*

Revenues, expenses and assets are recognised net of the amount of GST except:

- ▶ When the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable

- ▶ Receivables and payables, which are stated with the amount of GST included

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position. Cash flows are included in the statement of cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority is classified as part of operating cash flows. Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

### **(g) Leases**

Leases of property, plant and equipment where the Group, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases (note 12). Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in other short-term and long-term payables. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant and equipment acquired under finance leases is depreciated over the shorter of the asset's useful life and the lease term.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating leases (note 27). Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease. Lease income from operating leases where the Group is a lessor is recognised in income on a straight-line basis over the lease term.

### **(h) Impairment of assets**

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating

## **1. Summary of significant accounting policies (continued)**

units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

### **(i) Cash and cash equivalents**

For statement of cash flows presentation purposes, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the Statement of Financial Position.

### **(j) Trade receivables**

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

Collectability of trade receivables is reviewed on an ongoing basis. Debts, which are known to be uncollectible, are written off by reducing the carrying amount directly. An allowance account (provision for impairment of trade receivables) is used when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators that the trade receivable is impaired. The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

The amount of the impairment loss is recognised in profit or loss within 'sales and marketing expenses'. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in profit or loss.

### **(k) Inventories**

Raw materials and stores, work in progress and finished goods are stated at the lower of cost and net realisable value. Cost comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Costs are assigned to individual items of inventory on basis of weighted average costs. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

### **(l) Investments and other financial assets**

Investments and financial assets in the scope of AASB 139 Financial Instruments: Recognition and Measurement are categorised as either financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, or available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. Designation is re-evaluated at each financial year end, but there are restrictions on reclassifying to other categories.

### **(m) Property, plant and equipment**

All property, plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is

## 1. Summary of significant accounting policies (continued)

derecognised. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation on assets is calculated using the straight-line method to allocate their cost or re-valued amounts, net of their residual values, over their estimated useful lives. The expected useful lives for all categories of property, plant and equipment are between 3 and 6 years.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 1(h)).

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss.

### (n) Intangible assets

#### *Research and development*

Expenditure on research activities, undertaken with the prospect of obtaining new scientific or technical knowledge and understanding, is recognised in the statement of comprehensive income as an expense when it is incurred.

Expenditure on development activities, being the application of research findings or other knowledge to a plan or design for the production of new or substantially improved products or services before the start of commercial production or use, is capitalised if the product or service is technically and commercially feasible and adequate resources are available to complete development.

The expenditure capitalised comprises all directly attributable costs, including costs of materials, services, direct labour and an appropriate proportion of overheads. Other development expenditures that do not meet these criteria are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period. Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is ready for use on a straight-line basis over its useful life, which is dependent on the specific activity capitalised. Historically, this has been 7 years.

### (o) Trade and other payables

Trade and other payables are carried at amortised cost and due to their short-term nature they are not discounted. They represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and are usually paid within 30 days of recognition.

### (p) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit and loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities, which are not an incremental cost relating to the actual draw-down of the facility, are recognised as prepayments and amortised on a straight-line basis over the term of the facility.

Borrowings are removed from the Statement of Financial Position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial

## 1. Summary of significant accounting policies (continued)

liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in other income or other expenses.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

### (q) Borrowing costs

Borrowing costs incurred for the construction of any qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed.

Borrowing costs include:

- Interest on bank overdrafts, other short-term funding facilities and short-term and long-term borrowings,
- Finance lease charges, and
- Bank charges on borrowing facilities.

### (r) Provisions

Provisions for legal claims, service warranties and make good obligations are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the reporting date. The discount rate used to determine the present value reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

### (s) Employee benefits

#### (i) Wages and salaries and annual leave

Liabilities for wages and salaries, including non-monetary benefits, and annual leave expected to be settled within 12 months of the reporting date are recognised in provisions in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

#### (ii) Long service leave

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

#### (iii) Share-based payments

Share-based compensation benefits, if applicable, are provided to employees via the Compumedics Employee Option Plan. Information relating to these schemes is set out in note 28.

The fair value of options granted under the Compumedics Employee Option Plan is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognised over the period during which the employees become unconditionally entitled to the options.

The fair value at grant date is independently determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

## 1. Summary of significant accounting policies (continued)

The fair value of the options granted is adjusted to reflect market-vesting conditions, but excludes the impact of any non-market vesting conditions (for example, profitability and sales growth targets). Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable. At each reporting date, the entity revises its estimate of the number of options that are expected to become exercisable. The employee benefit expense recognised each period takes into account the most recent estimate. The impact of the revision to original estimates, if any, is recognised in profit or loss with a corresponding adjustment to equity.

### (iv) Termination benefits

Termination benefits are payable when employment is terminated before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits when it is demonstrably committed to either terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal or providing termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits falling due more than 12 months after reporting date are discounted to present value.

### (t) Contributed equity

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

### (u) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the financial year but not distributed at reporting date.

### (v) Earnings per share

#### (i) Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the Company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

#### (ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

### (w) Rounding of amounts

Compumedics Limited is a type of Company referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 and therefore the amounts contained in this report and in the financial report have been rounded to the nearest \$1,000, or in certain cases, to the nearest dollar.

### (x) Reclassifications

Certain reclassifications have been made in the financial statements to ensure that prior year comparisons conform to the current year presentations.

## 1. Summary of significant accounting policies (continued)

### (y) New accounting standards and interpretations

The following standards and interpretations have been issued by the AASB but are not yet effective for the year ended 30 June 2018.

Reference	Nature of change	Effective date (annual reporting periods beginning on or after)	Likely impact on initial application
AASB 9 Financial Instruments	<p>AASB 9 includes requirements for the classification and measurement of financial assets and incorporates amendments to the accounting for financial liabilities and hedge accounting rules to remove the quantitative hedge effectiveness tests and have been replaced with a business model test.</p> <p>AASB 9 improves and simplifies the approach for classification and measurement of financial assets compared with the requirements of AASB 139 as follows:</p> <ul style="list-style-type: none"> <li>a) Financial assets that are debt instruments will be classified based on (1) the objective of the entity's business model for managing the financial assets; (2) the characteristics of the contractual cash flows.</li> <li>b) Allows an irrevocable election on initial recognition to present gains and losses on investments in equity instruments that are not held for trading in other comprehensive income.</li> <li>c) Financial assets can be designated and measured at fair value through profit or loss at initial recognition if doing so eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities, or recognising the gains and losses on them, on different bases.</li> </ul> <p>AASB 2012-6 also modifies the relief from restating prior periods by amending AASB 7 to require additional disclosures on transition to AASB 9 in some circumstances. Consequential amendments were made to other standards as a result of AASB 9 by AASB 2014-7 and AASB 2014-8. The mandatory application date of AASB 9 has been deferred to annual reporting periods beginning on or after 1 January 2018 by AASB 2014-1.</p>	1 January 2018	When this Standard is first adopted for the year ending 30 June 2019, there will be no material impact on the financial statements.
AASB 15 Revenue from Contracts with Customers	<p>AASB 15 replaces AASB 118 Revenue, AASB 111 Construction Contracts and four Interpretations issued by the AASB and amends the principles for recognising revenue from contracts with customers. It applies to all contracts with customers except leases, financial instruments and insurance contracts. The Standard requires an entity to recognise revenue on a basis that depicts the transfer of promised goods or services to customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that principle, an entity</p>	1 January 2018	The Company has considered the changes in revenue recognition requirements as specified in AASB 15. The Company does not believe these will have a material impact on the future results of the Company.

Reference	Nature of change	Effective date (annual reporting periods beginning on or after)	Likely impact on initial application
	<p>shall apply all of the following steps:</p> <ul style="list-style-type: none"> <li>a) identify the contract with a customer;</li> <li>b) identify the separate performance obligations in the contract;</li> <li>c) determine the transaction price;</li> <li>d) allocate the transaction price to the separate performance obligations in the contract; and</li> <li>e) recognise revenue when (or as) the entity satisfies a performance obligation.</li> </ul> <p>Consequential amendments to other Standards are made by AASB 2014-5 Amendments to Australian Accounting Standards arising from AASB 15.</p>		
AASB 16 Leases	<p>AASB 16 replaces AASB 117 Leases and sets out the principles for the recognition, measurement, presentation and disclosure of leases.</p> <p>AASB 16 introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligations to make lease payments.</p> <p>A lessee measures right-of-use assets similarly to other non-financial assets (such as property, plant and equipment) and lease liabilities similarly to other financial liabilities. As a consequence, a lessee recognises depreciation of the right-of-use asset and interest on the lease liability, and also classifies cash repayments of the lease liability into a principal portion and an interest portion and presents them in the statement of cash flows applying AASB 107 Statement of Cash Flows.</p> <p>AASB 16 substantially carries forward the lessor accounting requirements in AASB 117 <i>Leases</i>. Accordingly, a lessor continues to classify its leases as operating leases or finance leases.</p> <p>Early application is permitted provided the entity also applies AASB 15 <i>Revenue from Contracts with Customers</i> at or before the same date.</p>	1 January 2019	The entity has not yet assessed the full impact of AASB 16 as this standard does not apply mandatorily before 1 January 2019.

## Notes to the Financial Statements (continued)

For the year ended 30 June 2018

**2. Financial risk management**

The Group's activities expose it to a variety of financial risks: market risk (including foreign currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance and financial position of the Group.

Risk management is carried out by the senior managers of the Group.

**(a) Market risk***(i) Foreign currency risk*

Foreign exchange risk arises when recognised assets and liabilities are denominated in a currency that is not the entity's functional currency.

The Group operates internationally and is exposed to foreign exchange risk primarily arising from currency exposures to the US dollar and the Euro.

The Group does not generally use derivative financial instruments as the Group seeks to offset its revenues and receivables denominated in US dollars and Euros with expenses and payables in the same currency where it is appropriate to do so. The Group will look to cover specific foreign currency exposures where it is appropriate to do so.

The Group's and parent entity's exposure to foreign currency risk at the reporting date was as follows:

	30 June 2018		30 June 2017	
	USD \$'000	EUR \$'000	USD \$'000	EUR \$'000
<b>Financial assets</b>				
Cash and cash equivalents	1,870	648	1,003	194
Trade receivables	9,378	3,004	7,884	2,374
<b>Financial liabilities</b>				
Bank Loans	-	(371)	(147)	(274)
Trade payables	(1,319)	(353)	(590)	(598)
<b>Net exposure</b>	<b>9,929</b>	<b>2,929</b>	<b>8,150</b>	<b>1,696</b>

*Sensitivity analysis*

Based on the financial instruments held at 30 June 2018, had the Australian dollar weakened/strengthened by five percent against the US dollar with all other variables held constant, the Group's post-tax profit for the year would have been \$0.640m higher / \$0.708m lower (2017: \$0.558m higher / \$0.505m lower), as a result of foreign exchange gains/losses on translation of US dollar denominated financial instruments as detailed in the above table. Based on the financial instruments held at 30 June 2018, had the Australian dollar weakened/strengthened by five percent against the EURO with all other variables held constant, the Group's post-tax profit for the year would have been \$0.248m higher / \$0.274m lower (2017: \$0.132m higher / \$0.120m lower), as a result of foreign exchange gains/losses on translation of EURO dollar denominated financial instruments as detailed in the above table. The Group and parent entity's exposure to other foreign exchange movements is not material. The Group considers a five percent movement in either the US dollar or the Euro appropriate for the purposes of this sensitivity analysis as historically the Australian dollar has moved in a plus or minus five percent band against the US dollar and the Euro in any given recent financial year.

**Notes to the Financial Statements (continued)**

For the year ended 30 June 2018

**2. Financial risk management (continued)****(a) Market risk (continued)**

The parent entity has a current intercompany account receivable with the US business, all of which is considered a net investment in the US legal entity. As such, any exchange gain or loss resulting from the translation into Australian Dollars of the net investment of the intercompany account is taken to a foreign currency translation reserve. There is no profit or loss impact from movements in exchange rates relating to this net investment.

The parent entity likewise considers its intercompany account with the German and French businesses as part of its net investment and again there is no profit or loss impact from movements in exchange rates related to these net investments.

*(ii) Interest rate risk*

As at the reporting date, the Group had the following variable rate borrowings outstanding:

	30 June 2018		30 June 2017	
	Weighted average interest rate %	Balance \$'000	Weighted average interest rate %	Balance \$'000
<b>Consolidated</b>				
Cash and cash equivalents	0.00%	3,906	0.00%	4,102
Bank overdrafts and loans and invoice financing facility	10.1%	1,891	19.07%	715

*Sensitivity analysis*

The Group's overall sensitivity to interest rate movements is, in part, dependent on the underlying profitability of the Group. If the Group delivers profits at the level achieved in the year ended 30 June 2018 then based on 30 June 2018 year end borrowing of \$1.9m a plus or minus 2% movement in interest rates (+/- \$37,819) would not cause a material change in underlying profitability of the Group.

The Group has adopted a policy of predominantly borrowing in Australian dollars with Australian banks and/or other financial institutions as it builds its offshore businesses. The Group does have an overdraft in its 100% subsidiary Compumedics Germany GmbH. The facility limit is EUR350k. The Group also has a USD500k invoice finance facility in its Compumedics USA subsidiary. As appropriate, the Group will continue to evolve its borrowing profile such that borrowings are spread across territories in relation to the business undertaken in those territories.

**(b) Credit risk**

The Group currently sells goods and services primarily to four major geographic regions being:

- Australia and New Zealand (A & NZ)
- United States of America (USA)
- Europe, the Middle East and Africa (EMEA)
- Asia

The sale of goods and services into Australia and New Zealand, the USA, France and Germany are made directly to the end user customer.

## Notes to the Financial Statements (continued)

For the year ended 30 June 2018

## 2. Financial risk management (continued)

## (b) Credit risk (continued)

The sale of goods and services to Europe, the Middle East, Africa and Asia are typically made via distributors based in specific countries in Europe (excluding France and Germany), the Middle East, Africa and Asia. The distributor then on sells the goods to the end user customer in the specific country in Europe, the Middle East, Africa and Asia.

The collectability of receivables within agreed terms is typically better where the goods and services are sold to a direct customer rather than to a distributor.

The Group does not hold any credit derivatives to offset its credit exposure. The Company has an invoice financing facility for Australia provided by the Bank of Melbourne together with an overdraft facility in its 100% owned Germany based subsidiary, Compumedics Germany GmbH. Details of which can be found at Note 15. These financing activities do not affect this analysis of credit risk summarised here.

The Group trades only with recognised, creditworthy third parties.

It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures including an assessment of their independent credit rating, financial position, past experience and industry reputation. Risk limits are set for each individual customer in accordance with parameters set by the Board. These risk limits are regularly monitored.

In addition, receivable balances are monitored on an ongoing basis with the result that the Group's experience of bad debts has not been significant, despite receivable balances remaining payable beyond terms. The following tables identify accounts receivable at 30 June 2018 and 30 June 2017 identified by debt owed into major region and currency. The aging analysis is presented based on due date of invoice.

Region	Not Due \$'000	1 to 29 Days \$'000	30 Days \$'000	60 Days \$'000	90+ Days \$'000	Total \$'000
<b>2018</b>						
Australia and Asia Pacific (AUD)	1,291	311	46	11	35	1,694
Australia and Asia Pacific (USD)	4,790	459	92	26	388	5,755
Australia and Asia Pacific (EUR)	219	42	-	-	103	364
USA Entities (USD)	4,062	142	384	12	336	4,936
European Entities (EUR)	2,737	358	85	17	602	3,799
	<u>13,099</u>	<u>1,312</u>	<u>607</u>	<u>66</u>	<u>1,464</u>	<u>16,548</u>
Provision		-	-	-	(349)	(349)
<b>2017</b>						
Australia and Asia Pacific (AUD)	637	599	84	(2)	55	1,373
Australia and Asia Pacific (USD)	3,866	1,161	2	114	377	5,520
Australia and Asia Pacific (EUR)	189	235	19	-	143	586
USA Entities (USD)	2,188	387	184	165	226	3,150
European Entities (EUR)	1,812	168	65	3	540	2,588
	<u>8,692</u>	<u>2,550</u>	<u>354</u>	<u>280</u>	<u>1,341</u>	<u>13,217</u>
Provision		-	-	-	(360)	(360)

The table highlights that:

- The collection of cash from the sale of goods and services to direct end user customers as identified by USA (USD) and Australia and Asia Pacific (AUD) accounts receivable usually occurs at or not long after agreed payment terms. Debtors in the 90-day column are 6.8% (2017: 7.2%) and 2.1% (2017: 4.0%) of the total debtors owing in the respective territories. Variations in the 90 day column year-on-year are not significant in absolute dollar terms and do not reflect any deterioration in amounts owing but rather reflect timing issues related to installation and training and the subsequent collection of cash.

**Notes to the Financial Statements (continued)**

For the year ended 30 June 2018

**2. Financial risk management (continued)****(b) Credit risk (continued)**

- The collection of cash from the sale of goods and services to distributors in Europe, the Middle East, Africa and Asia as represented by Australia and Asia Pacific (USD) accounts receivable usually occur well after agreed payment terms.  
Debtors in the 90-day column are approximately 6.7% (2017: 6.8%) of the total debtors outstanding in the current year. The Company does not consider these accounts receivable to be at risk of non-payment.
- The collection of cash from the sale of goods and services in the Europe-based business, which is primarily via distributors into Europe and Asia typically occurs after agreed payment terms. Debtors in the 90-day column for European Entities represent only 15.8% (2017: 20.9%) of all debtors owed to this business.

Information on the Group's maximum exposure to credit risk and financial assets that are either past due or impaired can be found at Note 10.

**(c) Liquidity risk**

Liquidity risk arises from the financial liabilities of the Group and the Group's subsequent ability to meet their obligations to repay their financial liabilities as and when they fall due.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, bank loans, finance leases and committed available credit lines.

The Group does not have a specific policy as to the ratio of long term to short term debt and has instead focused on minimising total Group debt.

The Group manages its liquidity risk by monitoring the total cash inflows and outflows expected on a monthly basis across its worldwide business units that reflect expectations of management of the expected settlement of financial assets and liabilities.

However, where the counterparty has a choice of when the amount is paid, the liability is allocated to the earliest period in which the Group can be required to pay. When the Group is committed to make amounts available in instalments, each instalment is allocated to the earliest period in which the Group is required to pay. For financial guarantee contracts, the maximum amount of the guarantee is allocated to the earliest period in which the guarantee can be called.

The risk implied from the values shown in the table below, reflects a balanced view of cash inflows and outflows of non-derivative financial instruments. Leasing obligations, trade payables and other financial liabilities mainly originate from the financing of assets used in the Group's ongoing operations such as property, plant, equipment and investments in working capital (e.g. inventories and trade receivables).

Liquid non-derivative assets comprising cash and receivables are considered in the Group's overall liquidity risk. The Group ensures that sufficient liquid assets are available to meet all the required short-term cash payments.

The Company increased bank debt from \$0.7m to \$1.9m during the financial year, whilst maintaining a cash balance of \$3.9m at 30 June 2018. The increase in the bank debt results from a new funding facility which supports the expenses of the MEG system sale/s. This new facility has a limit of \$1.0m.

**Notes to the Financial Statements (continued)**

For the year ended 30 June 2018

**3. Critical accounting estimates and judgements**

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

**Critical accounting estimates and assumptions**

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

*(i) Deferred revenues*

In calculating the Group's deferred revenues at any point in time the Group makes a judgement regarding the revenues to be deferred to future periods in respect of future installations and training obligations.

The Group reviews its installation and training obligations charged specifically against invoices raised with customers and defers this amount. This amount is deferred until such time as the future installation and training obligations have been extinguished.

*(ii) Inventory*

At any given point the Group has an obligation to carry its inventory at the lower of cost and net realisable value. In determining the Group's compliance with this requirement the Group reviews its slow moving inventory at December 31 and June 30 each year. As a consequence of this review the financial provision for slow moving inventory is adjusted with a resulting profit or loss impact.

In determining the appropriateness of the slow moving inventory provision the Group makes estimates about its future use of certain product lines and also the ultimate recoverability and usefulness of the inventory on hand.

Given the leading edge technology nature of the Group's activities, this may mean that inventory that was previously considered usable and therefore of value may quickly become redundant, obsolete or simply no longer usable.

*(iii) Trade receivables*

Similarly for trade receivables the Group must make an estimate at any given point in time as to the recoverability of the receivables it has on its ledger and a provision for impairment is created based on this estimate.

The estimate is based on many factors including:

- The Group's knowledge of its customers and the likelihood of there being any issue with payment
- The Group's prior good history in relation to collecting receivables
- The territory where the receivable is owed from; and
- The age of outstanding balances.

Using this information the Group makes an assessment of the recoverability of its trade receivables.

*(iv) Recoverability of capitalised development costs*

The Group did capitalise additional costs of \$1.8m (2017: \$1.1m) related predominantly to the development of the Somfit product and the new MEG product. The recoverability of these costs is dependent on the commercial success of both these products, which form the basis of the net present value calculations, so that it will generate future economic benefits in excess of the costs capitalised and therefore supports the carrying value of the assets. The Group continued amortisation of these costs in the 2018 financial year with a \$0.2m (2017: \$1.1m) charge to profit or loss in the current year.

**Notes to the Financial Statements (continued)**

For the year ended 30 June 2018

**(v) Deferred tax asset**

The Group books a deferred tax asset related to the future benefit of carry forward tax losses and unused tax credits as well as a net deferred tax asset relating to timing differences, where it is reasonably certain it can recover those losses against future taxable profits. The Group believes, at this point in time, it is likely the deferred tax asset is recoverable, given the restoration of profits over recent financial years and as such it booked a deferred tax asset at the 30 June 2018 of \$144k. This will be reviewed in future periods for appropriateness.

**4. Operating Segments****(a) Accounting policies and inter-segment transactions**

The accounting policies used by the Group in reporting segments internally are the same as those contained in note 1 to the accounts and in the prior periods except as detailed below:

*Inter-entity sales*

Inter-entity sales are recognised based on an internally set transfer price. The price is set annually and aims to reflect what the business operations could achieve if they sold their output and services to external parties at arm's length.

*Corporate charges*

Corporate charges comprise non-segmental expenses such as head office expenses and interest. Corporate charges are allocated to each operating segment on a proportionate basis linked to segment revenue so as to determine a segmental result.

It is the Group's policy that if term of revenue and expenses are not allocated to operating segments then any associated assets and liabilities are also not allocated to segments. This is to avoid asymmetrical allocations within segments which management believe would be inconsistent.

**(b) Description of segments****Identification of reportable segments**

The Group has identified its operating segments based on the internal reports that are reviewed and used by the executive management team (chief operating decision maker) in assessing performance and in determining the allocation of resources.

The operating segments are identified by management based on the geographical location in which products are sold and services provided, either directly to end-user customers or via distributors. Discrete financial information about each of these operating businesses is reported to the executive management team on at least a monthly basis.

For personal use only

**Notes to the Financial Statements (continued)**

For the year ended 30 June 2018

**4. Operating Segments (continued)****Geographic locations***America's*

The Group's America's based business includes, the United States, Canada and Latin America. The Group sells all of its product offerings in this region including sleep diagnostic systems, clinical EEG systems, brain monitoring systems, ultra sonic blood-flow systems, supplies and technical service and support. The US business also includes that sleep diagnostic services business. Sales in the Americas are predominantly direct sales to end-user customers. The US office is based in Charlotte, North Carolina.

*Australia and Asia Pacific*

The Group's head office is based in Melbourne, Australia and the Australia and Asia Pacific territory includes all countries in the Asia Pacific region with major countries for the territory including Japan and China. The Group sells all of its product offerings in this region including sleep diagnostic systems, clinical EEG systems, brain monitoring systems, ultra sonic blood-flow systems, supplies and technical service and support. The group sells directly to end-user customers in Australia and via a network of distributors into the Asian region.

*Europe and the Middle East*

The Group's Europe-based business has its principal office in Singen, Germany with a second office in Hamburg Germany. The Europe based territory includes all countries in the European region, plus all Middle Eastern countries. The Group sells all of its product offerings in this region including sleep diagnostic systems, clinical EEG systems, brain monitoring systems, ultra sonic blood-flow systems, supplies and technical service and support. The Group sells its ultra-sonic blood-flow systems directly in Germany and all other products are sold via a network of distributors across the territory.

*Major Customers*

The Group does not have any individual customer that contributes 10% or more to Group revenues in the years ended 30 June 2018 or 30 June 2017.

## Notes to the Financial Statements (continued)

For the year ended 30 June 2018

## 4. Operating Segments (continued)

Segment revenues are allocated based on the country in which the customer is located. Segment assets and capital expenditure are allocated based on where the assets are located.

2018	USA \$'000	Australia and Asia Pacific \$'000	Europe \$'000	Group \$'000

Sales within Australia for 2017 were \$5.6m

## 5. Revenue

	Consolidated	
	2018	2017
	\$'000	\$'000
<i>Sales revenue</i>		
Sale of goods	33,635	30,967
Services	3,367	3,450
	<b>37,002</b>	<b>34,417</b>

## 6. Other income

Other income	612	782
--------------	-----	-----

Other income relates to sub-lease rental income in Melbourne and other items not directly related to the main operating activities of the Group.

## Notes to the Financial Statements (continued)

For the year ended 30 June 2018

## 7. Expenses

	Consolidated	
	2018	2017
	\$'000	\$'000
<b>Profit before income tax includes the following specific expenses:</b>		
<i>Depreciation</i>		
Plant and equipment	262	227
Total depreciation	<b>262</b>	<b>227</b>
<i>Amortisation</i>		
Intangible asset	220	1,053
<i>Finance costs</i>		
Interest and finance charges paid/payable	207	312
<i>Rental expense relating to operating leases</i>		
Minimum lease payments	855	798
<i>Foreign exchange (gains) and losses (a)</i>	(25)	280
<i>Employee benefits</i>		
Payroll expense including leave payments	14,220	13,967
Superannuation entitlements	604	673
	<b>14,824</b>	<b>14,640</b>
Research and development expenditure	5,107	5,881
Current receivables – movement in impairment provision	(11)	(186)
Inventory – write down / (recovery):	402	(381)

(a) Foreign exchange gains and losses

Net foreign exchange gains/(losses) of \$0.025m (2017: \$(0.280)m) were primarily related to trading transactions.

## Notes to the Financial Statements (continued)

For the year ended 30 June 2018

**8. Income tax expense / (benefit)**

	Consolidated	
	2018 \$'000	2017 \$'000
<b>(a) Income tax expense</b>		
Current income tax charge	74	59
Deferred income tax	629	(258)
Income tax reported in the statement of profit or loss and other comprehensive income	<b>703</b>	<b>(199)</b>
<b>(b) Numerical reconciliation of income tax expense to prima facie tax payable</b>		
Profit / (Loss) before income tax expense as reported in the statement of profit or loss and other comprehensive income	3,487	1,106
Tax (benefit) at the Australian tax rate of 30% (2017 - 30%)	1,046	332
Tax effect of amounts which are not deductible (taxable) in calculating taxable income:		
Non-deductible expenses	18	4
Research and development	(370)	(369)
Deferred tax asset brought to account	9	(166)
Income tax expense (benefit) reported in the statement of profit or loss and other comprehensive income	<b>703</b>	<b>(199)</b>
<b>(c) Provision for income tax – current</b>		
Estimated income tax payable	71	7

At balance date the Group estimates there is a deferred tax liability of \$1.1m (2017 \$0.6m), related to the intangible assets, which has been fully offset by the deferred tax asset in relation to timing differences and R&D tax credits in Australia now recognised, with a value of \$1.2m (2017 \$1.4m).

The benefit of tax losses will be obtained if:

- (i) the Group derives future assessable income of a nature and an amount sufficient to enable the benefit from the deductions for the loss to be realised,
- (ii) the Group continues to comply with the conditions for deductibility imposed by tax legislation, and
- (iii) no change in tax legislation adversely affects the Group in realising the benefit from the deductions for the loss.

**(d) Tax consolidation legislation**

Compumedics Limited and its wholly owned Australian controlled entities have elected not to implement the tax consolidation legislation.

## Notes to the Financial Statements (continued)

For the year ended 30 June 2018

## 9. Current assets – Cash and cash equivalents

	Consolidated	
	2018	2017
	\$'000	\$'000
Cash at bank and in hand	3,906	4,102

Included in cash on hand is restricted cash amounting to \$0.2m. This relates to security for the rental bond on the offices the Company occupies in Melbourne and for security regarding the corporate credit cards used in the US.

**Reconciliation to Statement of Cash Flows**

For the purposes of the statement of cash flow, cash and cash equivalents comprise the following at 30 June

Cash at bank and in hand	3,9106	4,102
Bank overdrafts / invoice financing facility (note 15)	(706)	(704)
Balances per Statement of Cash Flows	<b>3,200</b>	<b>3,398</b>

## 10. Current assets – Trade and other receivables

	Consolidated	
	2018	2017
	\$'000	\$'000
Trade receivables	16,547	13,217
Allowance for impairment loss (a)	(349)	(360)
	<b>16,198</b>	<b>12,857</b>
Other receivables/prepayments	2,135	914
Related party receivables:		
Loans to key management personnel	-	-
	<b>18,333</b>	<b>13,771</b>

(a) Movements in the provision for impairment loss were as follows:

At 1 July	360	546
Provision for impairment recognised during the year	(26)	(3)
Receivables written off during the year as uncollectible	15	(183)
	<b>349</b>	<b>360</b>

The creation and release of the provision for impaired receivables has been included in 'sales and marketing' expenses in profit or loss. Amounts charged to the allowance account are generally written off when there is no expectation of recovering additional cash.

The other classes within trade and other receivables do not contain impaired assets and are not past due. Based on the credit history of these other classes, it is expected that these amounts will be received when due.

**Notes to the Financial Statements (continued)**

For the year ended 30 June 2018

**10. Current assets – Trade and other receivables (continued)****Past due but not impaired**

As of 30 June 2018, trade receivables of \$3,099,335 (2017 - \$4.165m) were past due but not impaired. These relate to a number of independent customers and distributors for whom there is no recent history of default. The ageing analysis of these trade receivables is as follows:

	<b>Consolidated</b>	
	<b>2018</b>	<b>2017</b>
	<b>\$'000</b>	<b>\$'000</b>
Up to 3 months	1,984	3,185
3 to 6 months	451	109
Over 6 months	664	871
	<b>3,099</b>	<b>4,165</b>

**Fair value and credit risk**

Due to the short-term nature of these non-interest bearing receivables, their carrying amount is assumed to approximate their fair value.

The maximum exposure to credit risk at the reporting date is the carrying amount of each class of receivables mentioned above. Refer to note 2 for more information on the risk management policy of the Group and the credit quality of the entity's trade receivables.

Due to the industry in which the Group operates, the Group trades with a number of Australian and overseas distributors who are historically slow payers. The ageing profile of trade receivables is closely monitored and significantly aged balances and doubtful accounts are provided against.

**11. Current assets - Inventories**

The provision for stock obsolescence was increased during the year ended 30 June 2018 by \$0.402m as a result of the Group recognising provision against specific inventory items. These activities have led the Group to adjust the provision for stock obsolescence to reflect the recoverable value of the inventory on hand at 30 June 2018.

	<b>Consolidated</b>	
	<b>2018</b>	<b>2017</b>
	<b>\$'000</b>	<b>\$'000</b>
Raw materials and stores (at cost)	4,669	4,668
Work in progress (at cost)	849	937
Finished goods (at net realisable value)	3,726	3,094
Provision for obsolescence	(1,683)	(1,281)
<b>Total inventories at the lower of cost and net realisable value</b>	<b>7,561</b>	<b>7,418</b>

**(a) Inventory expense**

Inventories recognised as an expense during the year ended 30 June 2018 amounted to \$15,475,987 (2017: \$12,784,755).

\* Relates to capitalised development costs being an internally generated intangible asset

\*\* Amortisation of \$219,751, (2017 - \$1,052,514) is included in depreciation and amortisation expense in profit or loss. The remaining balance of the intangible asset relates to MEG to be amortised over approximately 20 years, the Somfit product to be amortised over 10 years from first sale and the DWL products.

## 14. Current liabilities - Trade and other payables

	Consolidated	
	2018 \$'000	2017 \$'000
Trade payables	3,910	2,945
Other payables	1,177	1,220
	<b>5,087</b>	<b>4,165</b>

## (a) Foreign currency risk

For an analysis of the sensitivity of trade and other payables to foreign currency risk refer to note 2.

## Notes to the Financial Statements (continued)

For the year ended 30 June 2018

## 15. Current Liabilities - Borrowings

	Consolidated	
	2018 \$'000	2017 \$'000
<b>Secured</b>		
Invoice financing facility	112	297
Working capital facility (MEG)	805	-
Fixed term loan	339	-
Lease liabilities (note 27)	13	3
<b>Unsecured</b>		
Other loans	584	407
<b>Total Current Borrowings</b>	<b>1,853</b>	<b>707</b>

## Bank and Other Funding Facilities

The Company utilises an invoice finance facility provided by Bank of Melbourne (BOM) for Australian based customers. The invoice facility has a limit of \$1.0m and is dependent on the volume and type of invoices presented on an on-going basis in order to fully utilise the facility limit. The Company also has a working capital facility with BOM for funding the manufacture of the MEG system, the repayment of which is future receipts from the customer. The Company has transactional banking facilities and credit cards with Bank of Melbourne. The Group also has in place a USD0.5m invoice financing facility with BIBBY USA. The invoice facility has a limit of USD0.5m and is dependent on the volume and type of invoices presented on an on-going basis in order to fully utilise the facility limit. The Group also has a EUR0.35m unsecured overdraft facility with Sparkasse Bank in Germany.

## (a) Risk exposures

Details of the Group's exposure to fair value interest rate risk arising from current borrowings is set out in note 2.

## (b) Fair value disclosures

No borrowings are readily traded on organised markets.

The carrying amounts of all borrowings are not materially different to their fair values at reporting date.

## (c) Assets pledged as security and not derecognised in the Statement of Financial Position

The total secured liabilities are as follows:

	Consolidated	
	2018 \$'000	2017 \$'000
Invoice financing facility	112	297
Working capital facility (MEG)	805	-
Fixed term loan	339	-
Lease liabilities – current	13	3
Lease liabilities – non-current	38	8
<b>Total secured liabilities</b>	<b>1,307</b>	<b>308</b>

The facilities provided by the Bank of Melbourne are secured by a Corporate Guarantee and Indemnity unlimited as to amount and a Mortgage Debenture over all the assets and undertaking of the Company and subsidiaries: Compumedics Telemed Pty Ltd, Compumedics Cardiology Pty Ltd, Compumedics Medical Innovation Pty Ltd, Compumedics USA Inc, Compumedics Germany GmbH and Compumedics Singapore Pte Ltd.

Lease liabilities are effectively secured as the rights to the leased assets recognised in the financial statements revert to the lessor in the event of default.

## Notes to the Financial Statements (continued)

For the year ended 30 June 2018

## 15. Current Liabilities – Borrowings (continued)

The carrying amounts of assets pledged as security for current borrowings are:

	Notes	Consolidated	
		2018 \$'000	2017 \$'000
<b>Current</b>			
<i>Floating charge</i>			
Cash and cash equivalents	9	3,906	4,102

**Notes to the Financial Statements (continued)**

For the year ended 30 June 2018

**15. Current Liabilities – Borrowings (continued)**

The Group had funding facilities totalling \$4.6million at 30 June 2018. Access to the invoice financing facility is dependent on the volume and type of invoices presented such that the amount accessible is less than the facility limit.

**(f) Derivative instruments**

Compumedics Limited and certain of its controlled entities may be party to derivative financial instruments in the normal course of business in order to hedge exposure to fluctuations in foreign exchange rates. At reporting date there were no outstanding derivative financial instruments in place.

**16. Current liabilities - Provisions**

	<b>Consolidated</b>	
	<b>2018</b>	<b>2017</b>
	<b>\$'000</b>	<b>\$'000</b>
Employee benefits	2,290	2,305
Service warranties (note 16(a))	419	392
	<b>2,709</b>	<b>2,697</b>

**(a) Service warranties**

Provision is made for the estimated warranty claims in respect of products sold which are still under warranty at reporting date. These claims are expected to be settled in the next financial year but this may be extended into the following year if claims are made late in the warranty period and are subject to confirmation by suppliers that component parts are defective.

Management estimates the provision based on historical warranty claim information and any recent trends that may suggest future claims could differ from historical amounts.

**(b) Movements in provisions**

Movements in each class of provision during the financial year, other than employee benefits, are set out below:

	<b>Service warranties</b>
	<b>\$'000</b>
<b>Current</b>	
Carrying amount at start of year	392
Charged/(credited) to profit or loss	
- additional provisions recognised	35
- unused amounts reversed	-
<b>Carrying amount at end of year</b>	<b>419</b>

## Notes to the Financial Statements (continued)

For the year ended 30 June 2018

**17. Current liabilities - Deferred income**

	Consolidated	
	2018 \$'000	2017 \$'000
<b>Current</b>		
Deferred income	1,571	1,368

Deferred income relates to service contracts yet to be performed and post-sale installation and training obligations yet to be completed pursuant to the Group's accounting policies as detailed in Note 1 Summary of significant accounting policies, (e) Revenue recognition and Note 3 Critical accounting estimates and judgements, (i) Deferred Revenues.

**18. Non-current liabilities - Borrowings**

	Consolidated	
	2018 \$'000	2017 \$'000
<b>Secured</b>		
Lease liabilities (note 27)	38	8
	<u>38</u>	<u>8</u>

**(a) Foreign currency and interest rate risk**

Information about the Group's exposure to interest rate and foreign currency risk is provided in note 2 and note 15.

**19. Non-current liabilities – Provisions**

	Consolidated	
	2018 \$'000	2017 \$'000
Employee benefits	24	16

**20. Non-current liabilities - Deferred income**

	Consolidated	
	2018 \$'000	2017 \$'000
Deferred income	139	209

Deferred income relates to service contracts yet to be performed and post-sale installation and training obligations yet to be completed pursuant to the Group's accounting policies as detailed in Note 1 Summary of significant accounting policies, (e) Revenue recognition and Note 3 Critical accounting estimates and judgements, (i) Deferred Revenues.

## Notes to the Financial Statements (continued)

For the year ended 30 June 2018

**21. Contributed equity**

	Consolidated		Consolidated	
	2018 Shares	2017 Shares	2018 \$'000	2017 \$'000
<b>(a) Share capital</b>				
Ordinary shares Fully paid	177,162,948	177,162,948	35,654	35,654

**(b) Movements in ordinary share capital:**

Date	Details	Number of shares	Issue price	\$'000
30 June 2016	Balance	168,829,614		31,420
	New issues	8,333,334	54.0 cents	4,500
	Issue costs			(266)
30 June 2017	Balance	177,162,948		35,654
	No new issues	-	-	-
30 June 2018	Balance	177,162,948		35,654

**(c) Ordinary shares**

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of and amounts paid on the shares held.

On a show of hands every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote.

The ordinary shares have no par value.

**(d) Other equity securities**

There are no other equity securities issued at this time.

**(e) Capital management**

When managing capital, management's objective is to ensure the entity continues as a going concern as well as to maintain optimal returns to shareholders and benefits for other stakeholders. Management also aims to maintain a capital structure that ensures the lowest cost of capital available to the entity. Management will periodically adjust the capital structure of the Group to take advantage of favourable costs of capital or high returns on assets. As the market is constantly changing, management may pay a dividend to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Management currently has no plans to pay a dividend and has not done so in the prior year. This policy will be reviewed at least annually against known and anticipated operational outcomes.

Management may consider the issue of further shares on the market in the foreseeable future.

## Notes to the Financial Statements (continued)

For the year ended 30 June 2018

**21. Contributed equity (continued)****(e) Capital management (continued)**

	Consolidated

## Directors' Declaration

In the opinion of the directors:

- (a) the financial statements and notes set out on pages 16 to 61 are in accordance with the Corporations Act 2001, including:
  - (i) complying with Australian Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements; and
  - (ii) giving a true and fair view of the Company's and consolidated entity's financial position as at 30 June 2018 and of their performance for the financial year ended on that date; and
  - (iii) complying with the International Financial Reporting Standards as disclosed in note 1, and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and

The directors have been given the declarations by the chief executive officer and chief financial officer required by section 295A of the Corporations Act 2001.

This declaration is made in accordance with a resolution of the directors.

David Burton  
Director

Melbourne  
20 September 2018

## Independent Auditor's Report to the Members of Compumedics Limited

### Report on the Audit of the Financial Report

#### Opinion

We have audited the financial report of Compumedics Limited, which comprises the consolidated statement of financial position as at 30 June 2018, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the Directors' declaration.

In our opinion, the accompanying financial report of Compumedics Limited is in accordance with the *Corporations Act 2001*, including:

- i) giving a true and fair view of the Group's financial position as at 30 June 2018 and of its financial performance for the year then ended; and
- ii) complying with Australian Accounting Standards and *the Corporations Regulations 2001*.

#### Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the 'auditor's responsibilities for the audit of the financial report' section of our report. We are independent of the entity in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the Directors of the Company, would be in the same terms if given to the Directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Other information

The Directors are responsible for the other information. The other information comprises the information in Compumedics Limited's annual report for the year ended 30 June 2018, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of the other information we are required to report that fact. The annual report is expected to be made available to us after the date of this independent auditor's report.

## Directors' responsibility for the financial report

The Directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Directors are responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the entity or to cease operations, or have no realistic alternative but to do so.

## Auditor's responsibility for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at The Australian Auditing and Assurance Standards Board website at: [www.auasb.gov.au/auditors\\_responsibilities/ar1.pdf](http://www.auasb.gov.au/auditors_responsibilities/ar1.pdf). This description forms part of our auditor's report.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

## Report on the Remuneration Report

### Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 6 to 12 of the Directors' Report for the year ended 30 June 2018.

In our opinion, the Remuneration Report of Compumedics Limited for the year ended 30 June 2018, complies with section 300A of the *Corporations Act 2001*.

### Responsibilities

The Directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
